NATURE

Following a path between land and water we move across an incredible variety of natural environments such savannah, estuaries, forest, mangrove swamps. Birds will be a constant presence along the whole journey. **Djoudj National Sanctuary** in Senegal is one of the main migratory bird sanctuaries on earth.

HISTORY, PREHISTORY & TIMELESS VILLAGES

We will discover historical sites such as Dakar, the current capital of Senegal and an African intellectual center since before independence; Gorée Island, which was the collection point for slaves destined for the New World; Saint Louis, the first capital of French West Africa at the time of colonialism. We will experience contact with “timeless” people and places, such as nomadic herders and remote villages.

ART, CULTURE & MUSIC

In the northern savannah, we will be invited to the camp of nomadic herders and make the acquaintance of the largest African brotherhood that practices a peaceful Islam, rejecting all forms of fundamentalism and violence.

We will also focus on contemporary art and music: the metropolis of Dakar has always been the cultural capital of West Africa and attracts legions of painters, sculptors and artists from the entire continent.
